Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: (Simplified)

Example : DFD LEVEL 0 (Industry Standard)

User Stories

Use the below template to list all the user stories for the product

| User Type | Functional Requirement (Epic) | User Story Number | User Story / Task | Acceptance criteria | Priority | Release |
|-------------|-------------------------------|-------------------|--|--|----------|----------|
| Freelancer | Job Discovery | USN-1 | As a freelancer, I want to browse and search freelance jobs easily | Job listings displayed with search & filter options | High | Sprint-1 |
| Freelancer | Profile Management | USN-2 | As a freelancer, I want to create and manage my profile | Profile creation and update functionality available | High | Sprint-1 |
| Client | Job Posting | USN-3 | As a client, I want to post new freelance projects | Project successfully posted and visible to freelancers | High | Sprint-2 |
| Freelancer | Application Tracking | USN-4 | As a freelancer, I want to track my job applications | Application status visible in dashboard | Medium | Sprint-2 |
| Admin | Platform Monitoring | USN-5 | As an admin, I want to monitor user activities and manage listings | Admin dashboard available with control features | Medium | Sprint-3 |
| Stakeholder | Reports & Insights | USN-6 | As a stakeholder, I want downloadable reports for review | PDF/CSV report generation enabled | Medium | Sprint-3 |
