

## Project Design Phase-II

### Solution Requirements (Functional & Non-functional)

Date	18 February 2026
Team ID	LTVIP2026TMIDS81285
Project Name	FreelanceFinder – Discovering Opportunities, Unlocking Potential
Maximum Marks	4 Marks

#### Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration & Login	User signup, login, authentication, profile creation
FR-2	Job Posting Management	Clients can create, edit, and delete job listings
FR-3	Job Search & Filtering	Freelancers can search jobs using filters (skills, category, deadline)
FR-4	Application Management	Freelancers can apply for jobs and track application status
FR-5	Profile Management	Users can update profile details, skills, and portfolio
FR-6	Notifications System	Generate notifications for new jobs, applications, and updates
FR-7	Admin Monitoring	Admin can manage users, job listings, and platform activities

#### Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	<b>Usability</b>	The platform should be simple, user-friendly, and easy to navigate
NFR-2	<b>Security</b>	Only authenticated users can access dashboards and perform actions
NFR-3	<b>Reliability</b>	The system should consistently display accurate job and application data

NFR-4	<b>Performance</b>	Pages and job listings should load within 2–3 seconds
NFR-5	<b>Availability</b>	The platform should be accessible at all times with minimal downtime
NFR-6	<b>Scalability</b>	The system should support multiple users and increasing job postings
